

Lightweight
Long range
Durable & safe

Features and benefits

Long range

Possible to store up to 2,312 L of CNG at 200 bar in four-cylinder system for over 1,200 km of driving range

Lightweight

Composite and aluminum construction minimizes system weight - as little as 0.42 kg/L - allowing more freight capacity

Safe

Hexagon Agility's products are put through the most rigorous testing in the industry including crash tests and bonfire tests

Durable

Track tested for 1.6 million simulated km and validated by multiple OEM test programs

Compact

Mounted close to the cab for improved aerodynamics and more available frame rail space

Customer care

Unparalleled customer service in addition to Agility's comprehensive warranty with replacement parts, support, and training

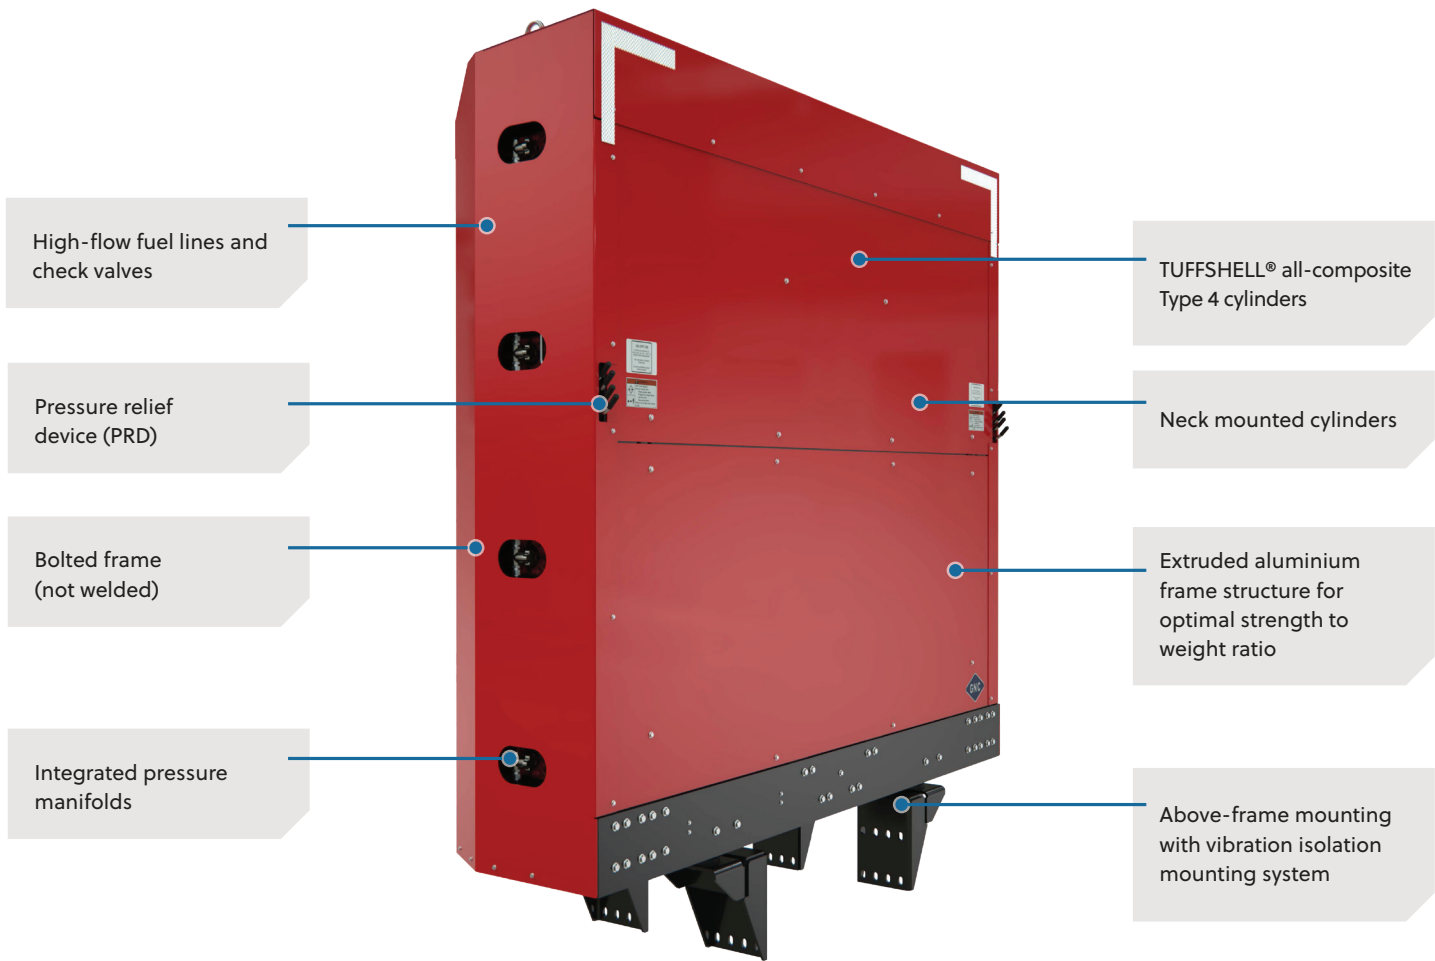

Design

Neck-mounted anti-spin design eliminates cylinder rotation that can stress fuel lines, even in the toughest duty cycles

Performance

Optional Fuel Management Module

Specifications

		ProCab 900	ProCab 1100
Number of cylinders	each	4	5
Fuel capacity	kg	161	201
Water volume	L	868	1,085
Height	mm	1,999	2,489
Width	mm	2,186	2,186
Depth	mm	612	612
Required space behind cab	mm	712	712
Empty weight	kg	638	740
Full weight including fuel	kg	797	951
Service pressure	bar	200	200
