

High-Quality Products and Service

ft gas control

PRIDE in our Standards, our Products and our Team

We aim to give old-fashioned service and a modern build quality.

FT Gas Control exceeds standards.

Environment

We are proud to represent GASCAT/Zenenergy Gas to power for natural gas, hydrogen, CNG, biomethane and other gases.

GASCAT pure hydrogen systems, which have been supplied for over 45 years.

Asset

We build long-life compact assets to ensure your system produces consistent results.

Delivery of complete turnkey packages.

FT Gas Control Systems has allied with the world-renowned Zennergy International to design and build bespoke gas systems that are fully compliant with the standards of the UK market.

We can supply product components or a complete turnkey system, to the highest possible standards, using GASCAT/Zennergy regulators, slam-shuts and safety devices.
